Fyi – Pam shooting you this note so you have a record that they said it’s okay just in case someone asks about it later.

From the IT perspective it’s fine for Pam to leave the mifi hotspot with Shawn, Tri will follow up next week with the paperwork to track it.

Hope that simplifies things,

Ray

Subject: Hot Spot

Hi guys –

Shawn Hackett and Tracy Ramsey are staying in trailers in TX which don’t have internet access. Pam Houston is scheduled to return to R7 tomorrow and has a hot spot they would like her to leave with one of them. They’ve been told by IT that the only way that can be done would be for Ken to submit a request to Tri asking that it be reassigned to one of them. Shawn was the one that called, so I would just reassign it to him.

Please let me know if this gets sorted so I can let Shawn and Tracey know the outcome. I see Tri is out so am including Ray in this e-mail string in the event he can help.

Thanks!
